

JetPac™ CRJ

Aircraft Systems

Virtual Flight Deck

JetPac from L3 Commercial Training Solutions (L3 CTS) is the only training package designed to introduce students to “glass cockpit” concepts using integrated simulation and courseware in a fully interactive environment.

JetPac is the fastest, easiest way to learn the concepts and procedures required to confidently manage Autopilot, EFIS (Electronic Flight Instrument System) and FMS (Flight Management System) in today’s automated flight decks. L3 CTS’ JetPac product offering encompasses the same high fidelity family of training tools we provide our airline customers worldwide.

JetPac Includes

- CRJ Flight Management Systems Trainer (FMST)
- CRJ Virtual Flight Deck (VFD)
- Computer Based Training (CBT)
- 8-10 Hours of Guided Lessons
- One Flight Exercise
- Two Part Evaluation

Features

- High Fidelity Simulation & Graphics
- Freeplay Environment
- SNAPSHOT
- Distance Learning
- Malfunctions *VFD only
- Learning Management System (LMS)

JetPac CRJ Features:

Application & Use

- Instructor-led Classroom Training
- Individual Self-paced Practice & Familiarization
- Flight Training Device (FTD) Briefing Tool
- Practice Preflight and In-flight Procedures for:
 - ▶ Flight Management System
 - ▶ Autopilot
 - ▶ Electronic Flight Instrument System (EFIS)
 - ▶ Navigation

FMST & VFD Avionics

- FMC
- Flight Instruments
- Autopilot
- Autothrottle/Autothrust
- Navigation Radios
- All Associated Control Panels and Displays

Metered Access

- Student Subscription License:
 - ▶ 40 hours of access
 - ▶ Additional hours may be purchased in 1 hour increments
- Minimum user requirement for a 3 year term:
 - ▶ VFD instructor station included for classroom use
- One-time account set-up fee

User Interface

- Simulation Control: Freeze, Ground Reset, Acceleration (X10), SNAPSHOTS
- Reposition: Airport, Runway, Navaid, Previous/Next Waypoint

Navigation Data Base

- Generic worldwide navigation database

Deployment

- CD-ROM: students and instructors can load & access on multiple computers
- Occasional internet connection required to update course progress through the LMS

Minimum PC Requirements

- Processor: Any PC Intel compatible processor purchased in the last 3 years
- Memory*: 1 GB RAM for Windows XP, 2 GB RAM for Windows Vista, 3 GB RAM for Windows 7
- Hard Drive: 6 GB available
- Video card: Capable of supporting OpenGL
- Operating System: Windows XP/Vista/Windows 7
- CD-ROM: 32X speed or greater

**The minimum requirements are intended to serve as a general guideline. Certain products may run on systems with less than the minimum requirements listed. Please contact L3 CTS with questions regarding any specific computer configurations.*
